Profile

Motivated Software Developer, graduate from Code Institute's Full-stack Web Developer course. Enthusiastic about developing my skills and knowledge base in the sector. Currently working on learning React. Fast learner, problem solver and hard worker.

Projects

PG Photography

An e-commerce full-stack web application built with the Django framework as the final part of my Code Institute course. The site is hosted on a free tier of Heroku with a Postgres database, and utilizing AWS S3 for serving static files and images. It offers full e-commerce functionality with payments being processed by stripe. Full details of the project can be found at the links below.

[Heroku](#)

[Github](#)

GameDB

A web application built as part of my Code Institute course. This site is hosted on Heroku and built using Flask. It is predominantly aimed at gamers. It allows users to upload a review of their favourite game and share their opinion with other users of the site. Full details of the project can be found at the links below.

[Heroku](#)

[Github](#)

Snake

This is an interactive web application built as part of my Code Institute course. It allows the users to play my version of the classic game Snake, built using JavaScript, HTML and CSS.

Full details of the project can be found at the links below.

Education

Full-stack Web Developer, Code Institute - 2020

Diploma in Full-stack Web Development from Code Institute.

Leaving Certificate, Jesus and Mary Secondary School - 2014

leaving Certificate from Jesus and Mary Secondary School.

Employment History

Labourer, Gerry Skey Plastering

JANUARY 2020 — MARCH 2020

- Responsible for maintaining sufficient levels of materials on site.
- Working in a very fast-paced environment, mixing and distributing plaster to plasterers.
- Maintaining a clean work area and equipment.
- Ensuring working platforms were safe for use and sufficient access was provided.
- Liaising with other site workers to ensure materials were moved correctly when needed.
- Liaising with site management in a timely manner about expected time frames for completion and what part of the site we were needed at next.

Scaffolder, McScaff

JULY 2019 — JANUARY 2020

- Adhering to strict regulations and safety standards when erecting working platforms, for both the end-users safety and my own.
- Inspecting ground conditions to ensure suitability before erecting scaffold.
- Ensuring all working platforms were safe for use, including access and handrails.
- Ensuring every working platform had a ladder tag to record inspections.
- Inspecting working platforms weekly, or after adverse weather conditions and recording inspection details to ensure the safety of others.
- Liaising with site management in a timely manner about expected time frames for completion and what part of the site we were needed at next.
- Altering scaffold in a safe manner as needed by other trades.
- Ensuring the upkeep of the compound, having all materials separated into individual stillages and stacked neatly and safely.

Shop Assistant, Gala

JULY 2017 — JULY 2019

- Being responsible for orders for sections of the shop assigned to me by management.
- Rotation of goods throughout the shop.
- Being responsible for both opening and closing of the store, depending on which shift I was on.
- Ensuring goods delivered were both correct and of acceptable condition.
- Communicating with customers in a friendly helpful manner whilst dealing with inquiries, concerns and product selection.
- Training of new employees who were working on the evening and or weekend shifts.
- Ensuring shop floor and storeroom were kept clean and tidy.

Farm Assistant, Family Farm

- General operation of Farm, including feeding of livestock, upkeep of sheds, land boundaries and machinery.
- Ensuring sufficient levels of feed and water, including bales and bagged feed.
- Erection of sheds to store livestock, materials and machinery.
- Movement of cattle when necessary. e.g: During calving season.

Courses

React, Udemy
